

## RELEASING SUB

### PRODUCT 20-336

The **TechWest Releasing Sub** is used with stacked tension release packer installations. The tool enables transfer of tension to the uppermost set packer, allowing each packer to be released individually, as opposed to attempting to release the packers simultaneously.

The releasing sub is available with a Cable Protecting Sub (shown as the bottom component in the drawing to the right).

#### FEATURES

- Compact Design
- Cost Efficient
- Economical in comparison with expansion joint
