

DUAL STRING CROSS-OVER

PRODUCT 20-087

The **TechWest Dual String Cross-Over** is used in conjunction with two packers in a dual zone completion to cross over the upper zone production into the tubing for pumping purposes. The lower zone then flows in the annulus.

This Dual String Cross-Over is available in most common packer mandrel sizes. As standard, it is available with A.P.I. tubing connections.

A version of this crossover specifically designed for use with the AC Tandem Packers (Product 20-022, 20-024).

SPECIFICATIONS

20-087 SPECIFICATION GUIDE				
Tubing Size in/mm	Product Number	Max OD		Internal Bottom Connection
